

PD in your school any time!

computer

+

projector & screen or whiteboard

+

speaker phone

Ziptales is proud to announce that we now offer **in school, 'virtual' PD sessions.**

These PD sessions are absolutely **free.**

What you will need are the following:

1. A **computer** connected to the internet
2. A digital **projector and screen** (of any kind) or **interactive whiteboard**
3. A telephone with '**speaker phone**' capability (so the call can be heard by all the staff at once)

At the appointed time, you gather your staff in a suitable place.

One of the Ziptales team will ring up and 'conference call' your staff. He or she will take everyone on a guided tour of Ziptales. The tour explains all major features, and the underlying pedagogy. Close attention is paid to the way teachers can customise Ziptales to cater to individual abilities, or reading problems. A special bracket of time is devoted to 'readability' issues (explaining the three 'onboard' scaling instruments), and to the SAM standardised measurement test. The PD, which tends to last about 20-30 minutes, ends with a Q&A session. Teachers can ask for further examples or explanation of anything they like, and can get instant answers.

For staff who have been too busy to spend the time becoming thoroughly acquainted with Ziptales, but would like to see how to integrate it into successfully into their programs, our virtual PD is the answer!

All you need to do is book ahead. We appreciate a week's notice, if you can.

Just email us (admin@ziptales.com) or phone on our toll free number, 1800 004 442.

You will find the PD very good value. We strongly recommend it.
